

Built-In Tonal Library (Infinity Series)

The true power of the Rodgers system is evident in the tonal specification and how it can be used. **Imagine the foundational sound of a registration using 15 Principal ranks at 8' pitch! Imagine the lush, rich sound of 64 Celeste ranks playing together!** All of this and more is possible. Rodgers exclusive Voice Palette™ system combined with the new Rodgers Tonal Library is what makes these things possible. No additional equipment is required.

Library Access controls (drawknobs engraved with an “L”) provide access to any selection from the Sound Library featuring 121 organ stops and 59 premium orchestral voices. Each Library selection may be user-voiced for volume, octave shift, warmth, presence, and brilliance, then saved to a piston for instant recall. Rodgers Infinity Series organs have 7 or 9 Library Access controls depending on the model – 2 controls for each manual and pedal division plus 1 control for the Solo.

Organ Stops

001	Principal 32	042	Piccolo 2	083	Vox Humaine Trem 8
